APPENDIX 2-A-1: Summary of Municipal Residential Drinking Water Systems Receiving Contravention Orders as a Result of an Inspection in 2012-13

DRINKING WATER SYSTEM OWNER	DRINKING WATER SYSTEM NAME	DATE ORDER ISSUED	ORDER SYNOPSIS
Atikokan, The Corporation of the Town of	Atikokan Drinking Water System	May 27, 2013	<ul style="list-style-type: none"> Provide a report on the status of the chlorinator, and review of the flow features of the fluoride system. Provide a report describing what actions have been taken to ensure that data from the continuous analyzers is recorded and kept for the required period of time. Confirm whether the installation of the raw water flow meters meets the manufacturer's requirements. Confirm that flow monitoring data is being recorded correctly for raw water flow meters.
Greenstone, The Corporation of the Municipality of	Geraldton Drinking Water System	April 18, 2013	<ul style="list-style-type: none"> The conventional filtration process did not meet the design requirements of the "Procedure for Disinfection of Drinking Water in Ontario". Chlorine contact time calculations were based on an incorrect detention time of water in the clearwells. Treatment equipment for gas chlorination and chemical addition were not in operation whenever water was being supplied. Following the response to an alarm related to the loss of chlorination, the operator-in-charge did not take appropriate actions and did not monitor the situation. The operator in charge did not ensure that records were made of all adjustments to the process. During periods when primary and secondary disinfection were not maintained, the operating authority did not immediately take measures to notify users to use an alternate supply of water or to boil the water. Reports of loss of disinfection were not immediately provided to the medical officer of health and the ministry.

APPENDIX 2-A-2: Summary of Municipal Residential Drinking Water Systems Receiving Contravention Orders as a Result of an Incident in 2012-13

DRINKING WATER SYSTEM OWNER	DRINKING WATER SYSTEM NAME	DATE ORDER ISSUED	ORDER SYNOPSIS
Tiny, The Corporation of the Township of	McMahan Drinking Water System	November 14, 2012	<ul style="list-style-type: none"> Requirements of the order included, for example, sampling and testing the drinking water according to legislation. The municipality amalgamated this system with the Bluewater Drinking Water System and this system ceased to operate.

APPENDIX 2-B: Summary of Municipal Residential Drinking Water Systems Receiving Preventative Measures Orders as a Result of an Incident in 2012-13

DRINKING WATER SYSTEM OWNER	DRINKING WATER SYSTEM NAME	DATE ORDER ISSUED	ORDER SYNOPSIS
Emo, The Corporation of the Township of	Emo Drinking Water System	May 14, 2012	<ul style="list-style-type: none"> To grant the Emo Water Treatment Plant relief from strict compliance during the installation of new turbidity analyzers. The owner is not required to continuously monitor filter effluent turbidity and the plant is not required to be equipped with a high turbidity alarm during the maintenance work.
Ignace, The Corporation of the Township of	Ignace Drinking Water System	January 18, 2013	<ul style="list-style-type: none"> To grant the Ignace Water Treatment Plant relief from strict compliance until the treated water flow meter is operational. The owner and operating authority are not required to continuously monitor and record the flow rate and daily volume of treated water that flows from the treatment subsystem to the distribution system until then.
Kenora Association for Community Living	Kenora Area Drinking Water System	September 20, 2012	<ul style="list-style-type: none"> Remove the terminating end of the existing watermain from the sewer manhole and ensure that the separation distance between the main and the manhole conforms with the standards recommended by the ministry. Implement the following mitigating measures to the area potentially impacted by the cross-connection: (a) increase bacteriological sampling and chlorine residual testing; (b) collect complaint records (if any) and review them for any trends; (c) ensure appropriately trained staff monitor the condition of the watermain in the sewer manhole and document their observations; (d) ensure the municipality's emergency plan for reacting to watermain breaks or pressure losses is activated immediately. Have a qualified person survey Kenora's water distribution system for cross-connections in the sewer manholes.
Pickle Lake, The Corporation of the Township of	Pickle Lake Drinking Water System	July 12, 2012	<ul style="list-style-type: none"> To grant the Pickle Lake Drinking Water system relief from strict compliance due to a lightning strike which disabled chlorine alarms within the plant. The owners shall demonstrate that operators are manually checking free chlorine residuals and notify the ministry, as soon as possible, of the presence of bacteria in raw water samples.

DRINKING WATER SYSTEM OWNER	DRINKING WATER SYSTEM NAME	DATE ORDER ISSUED	ORDER SYNOPSIS
Red Lake, The Municipality of	Red Lake Drinking Water System	July 9, 2012	<ul style="list-style-type: none"> To grant the Red Lake Water Treatment Plant relief from strict compliance until the system's new Supervisory Control and Data Acquisition system is installed and operational. The owner is not required to continuously monitor and record the flow rate and daily volume of treated water that flows from the treatment subsystem to the distribution system.
Sioux Lookout, The Corporation of the Municipality of	Sioux Lookout Urban Drinking Water System	August 30, 2012	<ul style="list-style-type: none"> To grant the Sioux Lookout Urban Drinking Water System relief from strict compliance until the new raw and treated water flow meters are installed and operational at the plant. The owner and operating authority are not required to continuously monitor and record the flow rate and daily volume of treated water that flows from the treatment subsystem to the distribution system.

APPENDIX 2-C-1: Summary of Laboratories Licensed to Perform Drinking Water Testing Receiving Contravention Orders in 2012-13

MUNICIPAL LOCATION	LABORATORY NAME	DATE ORDER ISSUED	ORDER SYNOPSIS
Mississauga, City of	Maxxam Analytics International Corporation	June 20, 2012	<ul style="list-style-type: none"> Cease providing drinking water testing services for a specific parameter without a licence. Ensure policies and procedures are in place and understood by staff, who have customer service responsibilities, regarding the acceptance and testing of drinking water samples for which the laboratory does not hold a Drinking Water Testing Licence. Provide a copy of the relevant policies, procedures and records that demonstrate the aforementioned staff have been trained on the policies and procedures.

APPENDIX 2-C-2: Summary of Non-licensed Facilities Receiving Contravention Orders in 2012-13

MUNICIPAL LOCATION	LABORATORY NAME	DATE ORDER ISSUED	ORDER SYNOPSIS
London, City of	GAP EnviroMicrobial Services Ltd.	September 17, 2012	<ul style="list-style-type: none"> Cease and desist providing drinking water testing services and analysing Ontario drinking water samples without a Drinking Water Testing Licence.

APPENDIX 3: Summary of Municipal Residential Drinking Water System Convictions – April 1, 2012 to March 31, 2013

OWNER AND/ OR OPERATOR OF DRINKING WATER SYSTEM	SYSTEM NAME	SYNOPSIS	CHARGES LAID	CONVICTION	FINE
North Middlesex, The Corporation of the Municipality of	North Middlesex Distribution System	Failing to collect bacteriological samples following watermain repairs and operating a water system without a valid operator's certificate	December 6, 2012	March 11, 2013	\$17,000.00 ¹
West Elgin, The Corporation of the Municipality of	West Elgin Water Treatment Plant	Failing to ensure that persons who carry out functions in relation to the drinking water system comply with reporting requirements	April 29, 2011	October 22, 2012	\$154,500.00 ¹
PUC Services Inc.	Blind River Water Treatment Plant	Failure to report that raw water had not been disinfected in accordance with the ministry's "Procedure for Disinfection of Drinking Water in Ontario" on several occasions	November 22, 2012	February 13, 2013	\$15,000.00
Total					\$186,500.00

¹ Includes, five individuals, three of whom were convicted for violations at the West Elgin Water Treatment Plant and two of whom were convicted for violations at the North Middlesex Distribution System.
